## QUICKLOADER® - Secure with confidence

QUICKLOADER® began in 2007, with our patented retractable tie-down. Its' unique new features, combined with traditional hardware, quickly made it the top choice for quality-conscious users and the originally Norwegian innovation is nowadays loved by people around the globe.

The awarded tie-down also inspired us to develop a whole assortment of securing products for various applications. Each new addition is upheld to the high QUICKLOADER® ideals of superior quality, ease of use and safety. Whether you are a truck driver, a contractor or a biker, we can offer you a strap you can *secure with confidence*.

## STANDARDISED AND CERTIFIED

Our tie-downs comply with the high EN 12195-2 standard requirements, i.e. our products have 50% higher webbing break strength than communicated on the package. Most products are also GS -certified by TÜV-Rheinland, which is the highest standard available for tie-downs. Additionally, through our local distribution partners, QUICKLOADER® products comply and often exceed the local requirements in the countries the range is sold.

## HEALTH AND ENVIRONMENT

We are constantly optimizing the production of QUICKLOADER® products to reduce their environmental impact and their effects on health and safety.

For example, we use RoHS compliant (Chromium-6 free) metal plating and PAHs Free (Polycyclic Aromatic Hydrocarbons) components and dye materials and our production partners undergo CSR related audits periodically.

## PERFECT PRODUCT FOR EVERY USE

QUICKLOADER® product family is divided into four categories: ultra light duty (pink), light duty (red), medium duty (orange) and heavy duty (yellow).

Additionally we use special color coding for “Power Sports” (neon green) and “Marine” (blue) models.

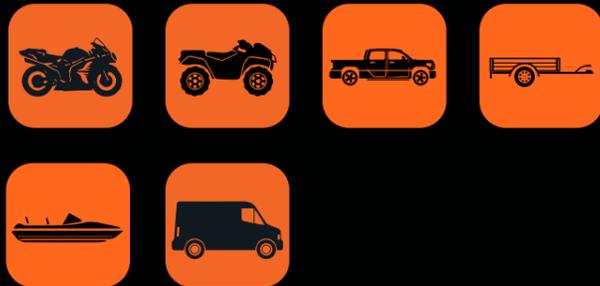

### ULTRA LIGHT DUTY

### LIGHT DUTY

### MEDIUM DUTY

### HEAVY DUTY

GS-CERTIFIED  
by TÜV Rheinland

RSB  
Retractable Safety Break

PAHs FREE  
Complies with recent ECHA  
restrictions against harmful  
chemicals.

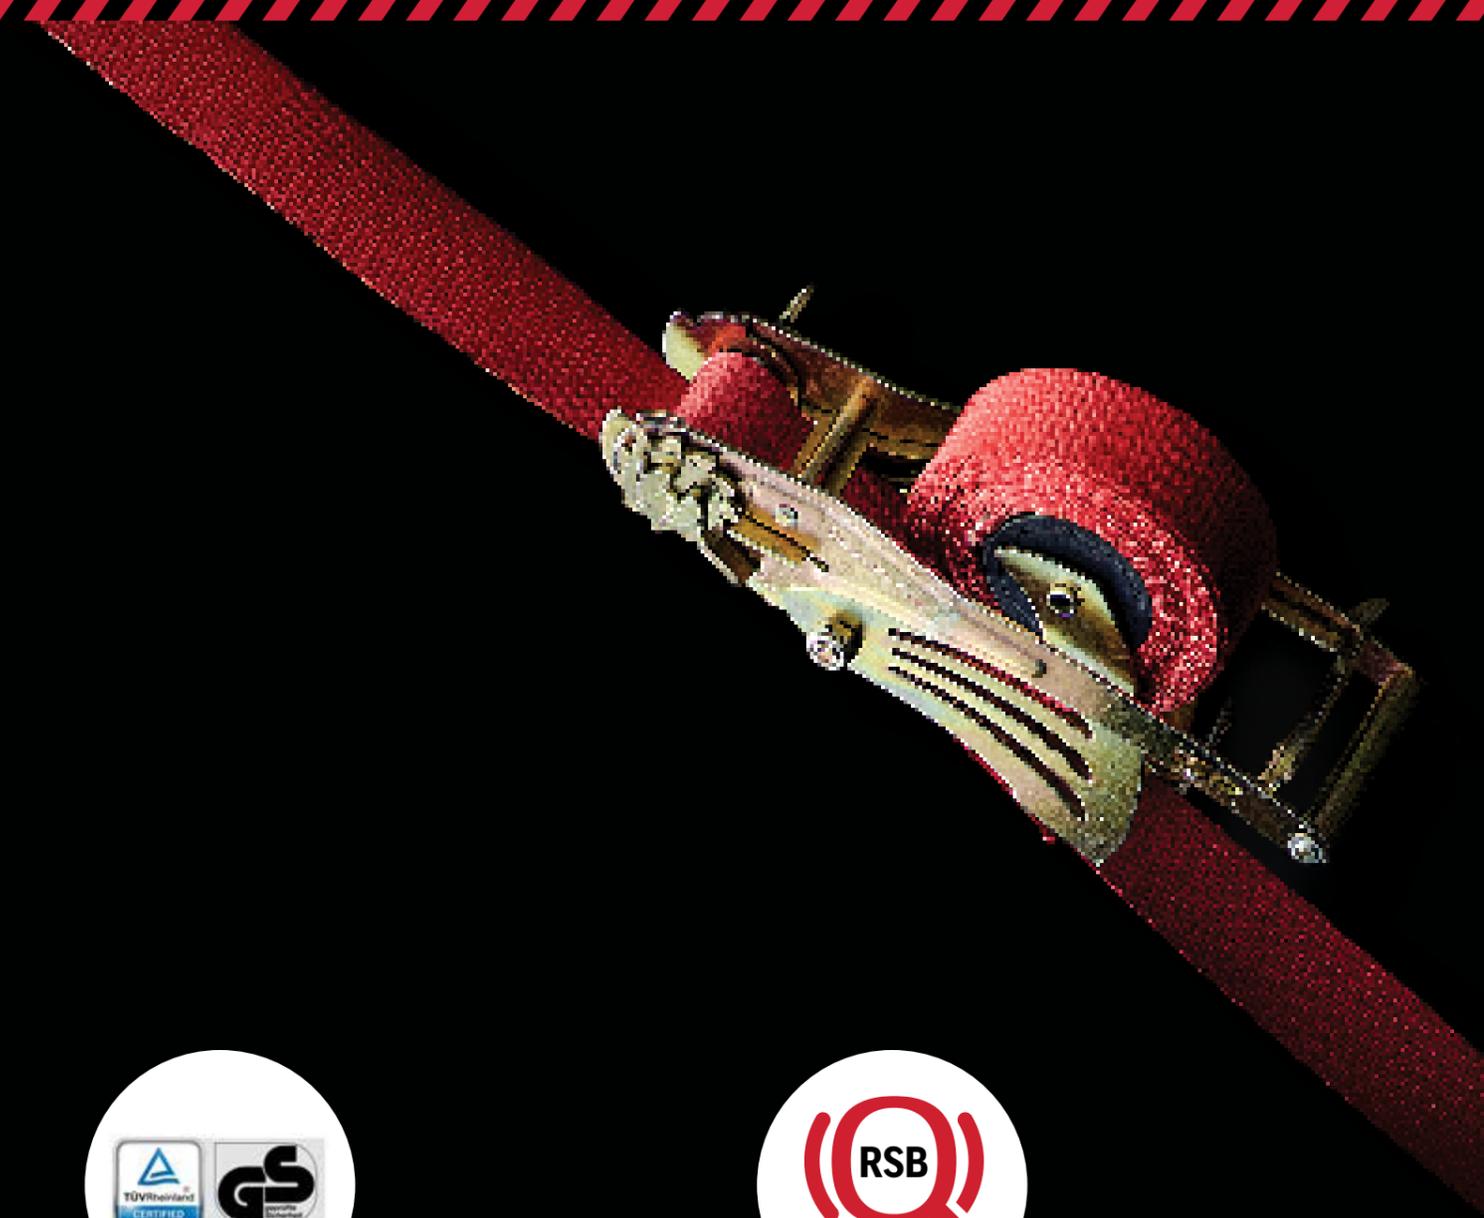

QUICKLOADER® ORIGINAL  
Includes unique benefits

Chromium-6 Free Metal Plating

RUST RESISTANT  
Our premium metal plating  
is tested according to GB/T  
10125-2012 and it passes the  
48h salt spray test.

# TIE-DOWNS

## RETRACTABLE TIE-DOWNS

### WORLD'S FASTEST TIE-DOWN

Our signature strap is quick to use thanks to its retractability and unique release handle. It is tough and durable, in the most demanding conditions and best of all the traditional locking mechanism makes QUICKLOADER® Retractable safer than your average alternative retractable tie-downs.

### PRODUCTS IN THIS CATEGORY

QUICKLOADER® Retractable Original  
QUICKLOADER® Retractable Marine  
QUICKLOADER® Retractable Power Sports

## QUICKLOADER® RETRACTABLE

### QUICKLOADER® RETRACTABLE

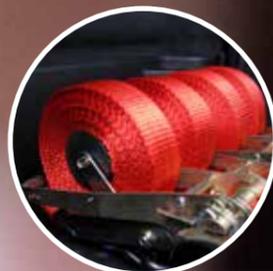

#### FAST, TOUGH AND SAFE

Our signature strap is quick to use, thanks to its retractability and unique release handle. It is tough and durable, in the most demanding conditions and best of all the traditional locking mechanism makes QUICKLOADER® safer than your average alternative retractable tie-downs.

## TRADITIONAL RATCHETS

### ATTACH

Feed the webbing through the locking mechanism, attach the hooks, ratchet the handle and tie up the loose webbing to the cargo.

### RELEASE

Untie the knot, release the handle, take the webbing out of the locking mechanism and roll it by hand to unload the cargo.

### STORAGE

In storage position the webbing looks like spaghetti, wears unnecessarily and needs to be untangled before re-use.

Glissez la sangle dans le mécanisme de fixation, attachez les crochets, fixez le cliquet et nouez le reste de la sangle pour sécuriser votre chargement.

Dénouez la sangle, relâchez le cliquet, faites sortir la sangle du mécanisme de fixation et déroulez la sangle manuellement.

La sangle ne peut pas être rangée de manière pratique car elle s'emmêle facilement.

Den Gurt durch die Ratsche führen, Haken anbringen, Ratschen und den losen Gurt verstauen.

Entknoten, Ratsche lösen, Gurt herausziehen und aufrollen per Hand, um die Ladung zu löschen.

Zur Lagerung gleicht das Gurtband "Spaghetti" und muss vor erneuter Benutzung erst entwirrt werden.

Pase las correas a través del mecanismo de bloqueo, conecte los ganchos, carrache el mango y ate las correas sueltas para asegurar la carga.

Desate el nudo, suelte la manija, retire la correa del mecanismo de bloqueo y gírela a mano para descargar la carga.

En la posición de almacenamiento, las correas se ven como espaguetis y deben desenredarse antes de volver a usarlas.

Syötä irtonainen liina lukitusmekanismin läpi, kiinnitä koukut varoen koukkujen irtoamista ja sido ylimääräinen liina rataslukon ympärille tai liinaan kiinni.

Irroita solmu, vapauta kahva, poista liina lukitusmekanismista ja rullaa se käsin purkaaksesi lastin.

Säilytyksessä liinat menevät sekaisin, kuluvat ja ne täytyy selvittää ennen käyttöä.

## VS. QUICKLOADER® RETRACTABLE TIE-DOWN

### ATTACH

Attach the hooks and ratchet the handle to secure the cargo.

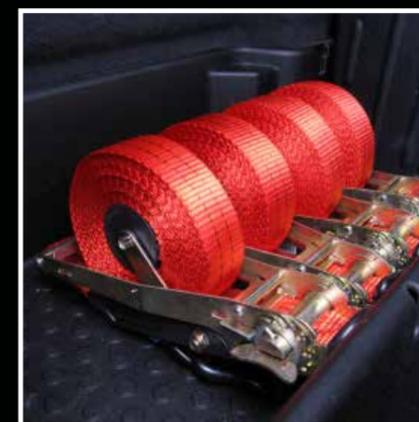

### RELEASE

Release the handle to unload the cargo. The webbing retracts automatically.

### STORAGE

QUICKLOADER® is always tidy and ready for use.

Fixez les crochets et cliquetez la poignée pour fixer la cargaison.

Relâchez la poignée pour décharger la cargaison. La sangle se rétracte automatiquement.

QUICKLOADER® est toujours bien rangé et prêt à l'emploi.

Zur Ladungssicherung einfach Gurt anbringen und losratschen.

Zum Lösen einfach den Griff ziehen. Der Gurt zieht sich automatisch ein.

QUICKLOADER® sind immer aufgeräumt und gebrauchsbereit.

Coloque los ganchos y trinquete el asa para asegurar la carga.

Suelte el asa para descargar la carga. Las correas se retraen automáticamente.

QUICKLOADER® siempre está ordenado y listo para usar.

Kiinnitä koukut ja kiristä kahvalla.

Avaa kuormaliina kahvasta ja pura lasti. Liina kelautuu automaattisesti rullalle.

QUICKLOADER® on aina käyttövalmis.

## QUICKLOADER® RETRACTABLE QL800LD

### QUICKLOADER® Retractable QL800LD 4,2m 1-pack

- Safely retractable
- Always tidy
- Traditional locking mechanism
- Longer handle (higher STF)
- Anti-tilting & non-finger pinching release
- Anti-friction technology
- Coated S-hooks
- Opening wing - won't get jammed
- Sandblasted

1x

**PACKAGING STYLE:**  
Environmentally friendly chipboard  
Includes multilingual instruction manual  
Try-me packaging

	4,2 m x 25 mm	13.8 ft x 1"
	800 kg	1.750 lbs
	400 kg	825 lbs

3,5 m (11.4 ft)		0,7 m (2.2 ft)

# QUICKLOADER® HYBRID

## MAGNETISING TIE-DOWN CATEGORY

We believe this is the most important tie-down innovation since our original QUICKLOADER® retractable strap: magnets in the strap.

Magnets mean no more mess with storage and, perhaps even more importantly, the hook won't slip when you attach the webbing to the side of the trailer.

These magnetised straps are referred to as "Hybrid".

# QUICKLOADER® ADVANTAGE HYBRID

## MAGNETISE THE ADVANTAGE

We believe this is the most important tie-down innovation since our original QUICKLOADER® retractable strap: *magnets in the strap*.

Magnets mean no more mess with storage and, perhaps even more importantly, the hook won't slip when you attach the webbing to the side of the trailer.

These magnetised straps are referred to as "Hybrid".

# QUICKLOADER® REBEL

## RATCHET WITH A FEELING

As a part of our QUICKLOADER(R) product family, we wanted to introduce a product range that makes you feel powerful when using it. We sought inspiration for the product from motorcycle handles and ended up with the QUICKLOADER® "Power Grip" handle with a mountain view grip texture. Rebel range has various hooks, weight classes and webbing textures to choose from.

# QUICKLOADER® CAMBUCKLE Z-LOCK

## WORLD'S STRONGEST CASTED CAM

We just love the speed and ease of using cambuckles as our fairly wide range of alternatives suggests.

Our QUICKLOADER® Cambuckle Z-lock is something special though. It's probably the strongest, sleekest and largest casted commercially certified cambuckle in the world. Its' several unique features make it a must-have for anyone who prefers to secure with cambuckles.

# BUNGIES

## BUNGIES & STRAPS

### IDEAL FOR FAST SECURING

Our Ultra Light Duty range features several new best-in-class innovations for the lighter securing jobs. They are perfect for hobbies, travel and light loads. The “ULD” at the end of the product code refers to our Lightest “Ultra Light Duty” range.

Always remember to evaluate the weight of the cargo before beginning your journey!

# QUICKLOADER® BUTTERFLY BUNGEE

## DESIGN WITH A PURPOSE

Annually, approximately 8 people are hospitalized due to bungee related accidents. This is something we needed to address in a meaningful way, as our most important value is to increase the safety of cargo securing products.

After years of development we arrived at our goal: QUICKLOADER® Butterfly Bungee, which we believe to be the best and safest traditional bungee, in the world.

# ACCESSORIES

## ACCESSORIES

### TWEAK, FIX & RE-USE

These days, we all want to reduce the environmental effects of our actions. So we ask that before buying something new by default - please stop and consider if you could instead modify or repair what you have?

Inspect all equipment periodically and always put safety first! However, in case everything is ok you might want to consider our accessories. Our magnets provide the same benefits as new straps but for the fraction of the cost.
